Creativity fueled by technology

- 6" Resin top ledge
- 6" Resin Uprights
- Yardmore Buttress Free Support System on Ovals
- Salt Water Compatible
- Oversized Corrosion-Free Foundation System
- Corrosion Protection on Pool Wall
- Snap-In, No Hardware Construction for Entire Frame
- Injection Molded Frame Creates Precision Fits of all Components Trinity

The integration of demanding engineering specifications and finely sculpted product appearance result in a beautiful and flowing design around the top of the Matrix pool. These components follow the flow of the pool wall and work with the forces of the water to create a pool frame that has a true round form.

BUILD YOUR
BACKYARD DREAM
WITH SEASPRAY

- Patented design allows the top ledge to pivot to the "up" position for easy assembly, installation, and regular maintenance.
- Advanced computer aided design, combined with leading edge gas assist injection molding technology allow for the parts to fit perfectly.
- Simplified assembly eliminates the need for metal fasteners and tools.
